SKILLS

TECHNICAL SKILLS

Proficient with:

Java • Python • Javascript / Typescript
HTML • CSS • Agile Scrum
Git / GitLab • Unix / Linux • Node.js
React.js • React Native • Swagger API
MySQL / PostgreSQL • MongoDB

Familiar with:

Gradle • Maven • Flask
TensorFlow / Keras • C/C++
Docker • Kubernetes • AWS EC2

SOFT SKILLS

Teamwork • Time Management
Leadership • Communication
Work Ethic • Adaptability

COURSEWORK

GRADUATE

Design and Analysis of Algorithms
Database Systems
Cybersecurity
Data Warehouse

UNDERGRADUATE

Software Engineering
Data Structures and Algorithms
Object-Oriented Programming
Machine Learning
Operating Systems

WORK EXPERIENCE

SOFTWARE ENGINEER II

INNOVATIVE DEFENSE TECHNOLOGIES

December 2021 - May 2025

- Worked on various government-funded and commercial contracts to design, develop, and deliver optimal solutions to our customers.

KEY RESPONSIBILITIES

- Developed and integrated new software features into complex, fully-functional automated test systems.
- Communicated with subject matter experts to design test case scenarios aimed at increasing test coverage and efficiency.
- Collaborated with team to troubleshoot and resolve software issues, ensuring the reliability and stability of test systems.

MOBILE APP DEVELOPER

ARKE AERONAUTICS

October 2020 - June 2021

- Worked on a cross-platform mobile app to serve first responders with situational awareness before arriving on-scene.

KEY RESPONSIBILITIES

- Prototyped and developed front end using React Native while ensuring compatibility across iOS/Android platforms.
- Adapted quickly in a pre-seed startup environment, delivering features at high velocity while wearing multiple hats.
- Optimized code-base and submitted review applications to launch "ArkeMobile" on the iOS App Store and Android Play Store.

FULL STACK DEVELOPER INTERN

FUTURFITS

June 2020 - September 2020

- Developed a Web Application and Chrome Extension that allows users to save their favorite products during e-commerce shopping.

KEY RESPONSIBILITIES

- Modeled the application database and built a RESTful API using MongoDB and Express.js.
- Designed and implemented parts of the Chrome Extension user interface using React.js.

TECHNICAL PROJECT

ODDJOB

GITHUB: [HTTPS://GITHUB.COM/JIANGS11/SENIOR-PROJECT-F20](https://github.com/jiangs11/SENIOR-PROJECT-F20)

- Service that connects people who need help with small tasks with motivated people looking to earn extra income!
- We intend for users to post requests for help with jobs. Other users can negotiate the terms on filling the request and executing the job(s).
- Frontend: HTML, CSS, Typescript, React
- Backend: Python, Flask, Google OAuth, MySQL
